Email: Aayushpal4217@gmail.com

Mobile: [+91 9027663577](tel:+919027663577)

SKILLS

Languages: C++, Python, Java

Frameworks: HTML, CSS, ReactJS

Backend: Spring Boot, REST APIs

Databases: MySQL, PostgreSQL, MongoDB

Data Science Tools: Excel, Tableau, NumPy, Pandas, Seaborn, Matplotlib

Tools: Git, GitHub, Postman, VS Code, IntelliJ Idea

Soft Skills: Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

Room-Based Chat Application | [GitHub](#)

April' 26

Tech: ReactJS, Spring Boot, WebSocket (STOMP), SockJS

- Developed a **full-stack real-time chat application** using **React and Spring Boot**, enabling seamless bidirectional communication between users.
- Implemented **WebSocket (STOMP + SockJS)** for instant message delivery, eliminating page reloads and reducing latency.
- Designed and managed **multi-user chat rooms**, supporting dynamic message exchange and real-time updates.
- Built advanced features like **message reactions and scheduled messaging**, improving user engagement and functionality.
- Architected scalable backend using **REST APIs and layered design (Controller–Service–Repository)** for maintainability and performance.

Movie Booking Application | [GitHub](#)

Mar' 26

Tech: ReactJS, Spring Boot, REST APIs, MySQL

- Developed a **show/movie ticket booking system** using **Spring Boot**, enabling users to browse shows, book tickets, and manage reservations efficiently.
- Designed and implemented **RESTful APIs** for booking operations, ensuring smooth communication between frontend and backend systems.
- Modeled application data using **JPA entities and relational mapping**, supporting structured storage of users, shows, and bookings.
- Applied **layered architecture (Controller–Service–Repository)** to ensure scalability, clean code organization, and maintainability.
- Implemented **database integration (MySQL/H2)** for persistent booking management with efficient CRUD operations.

TRAINING

Center for Professional Enhancement | [Link](#)

Jun' 25 – Jul' 25

Mastering Data Structure and Algorithms

- Gained strong hands-on expertise in core Data Structures including Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, Hashing and Heaps.
- Implemented multiple searching, sorting, and optimization algorithms (Binary Search, Quick Sort, Merge Sort, Graph, Greedy) improve code efficiency by up to 40%.
- Solved **260+** algorithmic problems focusing on time & space complexity optimization.

CERTIFICATES

Data Analytics Job Simulation by Deloitte | [Link](#)

July' 25

The Bits and Bytes of Computer Networking by Google | [Link](#)

Nov' 23

Object Oriented Programming by NeoColab | [Link](#)

Sep' 24

EDUCATION

Lovely Professional University

Bachelor of Technology – Computer Science and Engineering; CGPA:6.7

Phagwara, Punjab

Aug' 23 – Present

Millennium Public School

Intermediate – PCM; Percentage; 63%

Meerut, Uttar Pradesh

Apr' 22 – Mar' 23

Millennium Public School

Matriculation – Percentage; 48%

Meerut, Uttar Pradesh

Apr' 20 – Mar' 21
